Science, Mathematics, and Computing

# Explore Sapelo Island

From the field to the classroom:  
Blend of Science, History, and Place-Based Learning

**June 22-26, 2026**

- Five days of immersive professional learning grounded in scientific research
- Hands-on field investigations and data collection in the salt marshes, a rich living laboratory
- Inquiry-based lessons centered on phenomena and aligned with NGSS standards
- Focused practice in data analysis, critical thinking, and environmental stewardship
- Cultural immersion on Sapelo Island, including island tours and a low-country boil

Accommodations and Meals are provided at the  
Marine Institute at Sapelo Island

Travel to Sapelo Island is not included.  
Visitors from outside Georgia can fly into Atlanta or Savannah.

**Cost of Program: \$150**

*Enrollment is limited to 15 teachers.*

*If you are interested, please complete the form to receive updates and  
additional information.*

NSF Awards
