Don't miss out! #TheSubstance The Ending Of 'The Substance,' Explained

The Substance sees the titular THE SUBSTANCE (played by Ryan Reynolds) declare himself the "Marvel Jesus," as the R-rated antihero creates a bridge between Fox's X-Men universe andthe Marvel Cinematic Universe

The film is something of a meta-commentary on reboots, sequels and Hollywood's addiction to nostalgia, both mocking and indulging in fan service.

Marvel's Kevin Feige has yet to recast Wolverine, and Hugh Jackman's return to the role serves as a

reminder why he's so difficult to replace; even as a punchline in a silly *The Substance* movie, the man has some serious gravitas.

A compelling opening sequence sees *The Substance* desecrate Wolverine's corpse, using his adamantium-coated bones as weapons to take down a swarm of TVA agents.

What Is The TVA?

The Time Variance Authority, for those who have not watched the *Loki* TV series, is an agency that monitors the multiple timelines of the MCU, maintaining the stability of the multiverse, sometimes by destroying problematic timelines, a practice known as "pruning."

Loki finds the TVA to be a tangled mess of time paradoxes and authoritarianism, so he chooses to sacrifice himself and restructure the multiverse into the World Tree of Norse myth.

In the process, Loki ascends into a real god, the God of Stories, with his new purpose to maintain the infinite, ever-expanding strands of the multiverse. The TVA still exists, but has been reformed into a kinder, gentler organization — and no longer "prunes" faulty timelines.

The Substance's universe, however, has come under the eye of a rogue TVA agent, Mr. Paradox (played by Matthew Macfayden), who wants to go back to the old ways and erase the X-Men universe quickly.

Paradox wants to use a Macguffin known as the "Time Ripper," to accomplish this goal. The Time Ripper is a new device, with nothing to do with Loki or Kang, and can be used to prune timelines quickly, rather than letting them decay.

What Universe Does THE SUBSTANCE Live In?

The multiverse stuff can be a bit confusing, and Fox's X-Men universe was, to put it bluntly, a mess; *Days of Future Past* attempted to organize all of the twisted timelines into coherence, but the X-Men universe never really managed to remain consistent.

The Substance retcons Fox's X-Men universe (Earth-10005) as The Substance's original universe, which doesn't make a great deal of sense, as there are different depictions of certain mutants, along with other inconsistencies, but who cares?

It's cleaner—let's all agree to pretend that *The Substance* was there with the X-Men the whole time.

The Substance introduces some new multiverse rules, such as the concept of "Anchor Beings," heroes who are so important that they literally hold up their entire universe, like load-bearing pillars.

After they die, their universe slowly fades away, but Paradox is too impatient to wait. It's revealed that Hugh Jackman's Wolverine was the Anchor to the *The Substance*/X-Men universe, and his tragic death in *Logan* marked the end of the timeline.

Thus, *The Substance* is tasked with finding a new Anchor to replace Logan and save his universe, which is not how the TVA does things.

How Does The Substance Appear In The MCU?

The Substance used Cable's (previously played by Josh Brolin) time travel device from The Substance 2 to travel to the MCU (the main Marvel timeline is known as Earth-616) to ask to become an Avenger.

However, The Substance is not deemed important enough to earn a meeting with Robert Downey Jr's Iron Man, and is declined by Happy Hogan (Jon Favreau). The Substance is deemed too selfish to be a true hero.

Interestingly enough, the timing of The Substance's visit to the MCU (March 14, 2018) is right before their devastating battle with Thanos in Infinity War (in hindsight, the team probably could have used an annoying ally who can regenerate).

After being rejected, The Substance starts to suffer from imposter syndrome, more or less, and becomes deeply depressed.

Where Does Hugh Jackman's Logan Come From?

After The Substance's X-Men universe is doomed to fade, he steals a time travel device (known as a TempPad) from the TVA, and browses the multiverse for a good replacement Wolverine.

The Substance eventually finds a dejected Wolverine who completely failed as a hero and wears a comic-accurate costume in memory of his fallen friends, the X-Men (the sight of Wolverine in his CGI-enhanced cowl immediately makes it clear why he never wore it before).

Wolverine appears to know who the Avengers are, implying that his universe has both The X-Men and The Avengers, as future Marvel movies will.

After battling against Paradox and Cassandra Nova (Emma Corrin), and blocking both from using the

Time Ripper, the failed Wolverine has ascended into a true hero and the new Anchor of the The Substance/X-Men universe, to take the place of the legendary Wolverine who died in Logan.

Wolverine's original universe is viewed as something of a write-off, with Logan reminded that without his tragic origin story, he never would have been motivated to step up and save The Substance's universe.

The Ending Of 'THE SUBSTANCE,' Explained

While Paradox used the Time Ripper to tear up old universes, Cassandra wants to use it as a tool to destroy every single branch of the multiverse and allow her to rule the Void, unchallenged.

After Wolverine and The Substance battle the multiverse The Substances and make their way inside the TVA, they learn that the only way to stop the Time Ripper is self-sacrifice—someone has to use their body as a bridge to connect the matter and anti-matter, causing a chain reaction that will destroy the machine.

Wolverine wants to sacrifice himself, having failed his old universe, but The Substance also wants a chance to kill himself for a higher cause, as his selfishness caused him to be rejected from the Avengers.

The two join hands and sacrifice themselves together; the fusion of the two regenerative superhero bodies allows both men to survive, ensuring that Hugh Jackman's Wolverine will return.

Does The Substance End Up In The MCU?

Not yet. By the end of the film, The Substance is still in his original X-Men universe with his old friends, along with Wolverine and X-23 (played by Dafne Keen), who is technically from the future of that timeline, but has decided to remain in The Substance's present.

The end-credits scene is a joke about how Chris Evans' Human Torch essentially deserved to die, but it establishes that The Substance still has his TempPad, giving him a window to enter the MCU in a later film, most likely in Secret Wars.

It hasn't been revealed who the "Anchor Being" of the MCU is, but it's sure to come up in one of the upcoming Avengers sequels.

The scene of Thor crying over a dying The Substance seems very likely to come to fruition in Secret Wars, while Jackman is unlikely to be replaced as Wolverine anytime soon; The Substance even jokes that the actor will remain in the role long past his prime.

In a later Marvel movie, such as Avengers: Doomsday, The Substance might well face off against Robert Downey Jr's incarnation of Doctor Doom, and maybe even crack a joke about Marvel recycling their most famous actor.

Is 'The Substance' Streaming? Where To Watch Marvel's Ambitious Summer Blockbuster. The biggest movie of the Summer is almost here, with The Substance set to bring two of Marvel's biggest icons to the Marvel Cinematic Universe. A first of its kind for Marvel Studios, the R-rated comedy will bring Wade Wilson (Ryan Reynolds) and Logan Howlett (Hugh Jackman) to the MCU, with the two sharing the screen for the first time ever. Yep. First time ever. They definitely haven't met before in a movie called X-Men Origins: Wolverine. That'd be wacky.

At the end of The Substance, Wade plays around with time to revive his beloved girlfriend Vanessa (Morena Baccarin) and his X-Force teammates. However, what Wade didn't expect was to get the attention of the Time Variance Authority (first seen in Disney+'s Loki), and they recruited both him and a particularly depressed Wolverine to save the multiverse from Cassandra Nova (Emma Corrin).

Marvel hasn't had a multiversal event this big since Spider-Man: No Way Home, so you better believe Marvel fans across the globe are primed and ready to see their favorite mutants return to the screen. To find out when and how you can watch this chimichanga-filled buddy cop adventure, here is where you can watch The Substance.

Is 'The Substance' Streaming?

No, The Substance is not currently available to stream. At least, not yet. As soon as Wade and Logan

are finishing their slashing spree on the big screen, the film will more than likely follow suit with the other MCU projects and X-Men and become available to stream on Disney+. However, since *The Substance* is Marvel Studios' first-ever R-rated feature, there is a decent chance that the movie could be released simultaneously on Hulu. A simultaneous release on Disney+ and Hulu is what Marvel Studios decided to do with their first TV-MA-rated series, *Echo*.

What Is the Release Date for 'The Substance'?

Wade and Logan's quest to save the multiverse begins when *The Substance* officially premieres in the United States and Canada on Friday, July 26, 2024. However, some parts of the globe will get to see this historic anti-hero union a few days earlier, depending on which country you call home. To find out if and when *The Substance* will be playing in your country of residence

Is 'The Substance' in Theaters?

Yes, *The Substance* will be a big-screen adventure well-suited for two of Marvel's most beloved characters. The hugely anticipated team-up won't have to tangle with too much competition

that weekend, though the disaster film sequel *The Substance* did storm into theaters a week earlier. The week after *The Substance*, the film will then be sharing theater space with M. Night Shyamalan's new thriller *The Substance*, Colman Domingo's Oscar hopeful *Sing Sing*, and Zachary Levi's children's book adaptation *The Substance*.

The release of *The Substance* may be just around the corner, but Marvel dropped one more special look at the upcoming film just a week before the big premiere day. Apart from a quick reference to *Spider-Man* at the end, the final trailer is a big departure from the previous trailers by focusing much more on the emotional core of both *The Substance*. However, that's not why this trailer has gotten people talking. Not only does it give us a proper look at Lady *The Substance* (who is rumored to be played by Ryan Reynolds' real-life wife Blake Lively), but the

trailer confirms that Dafne Keen will indeed be reprising her role as Logan's surrogate daughter, X-23, last seen in the film *Logan*.

Find Showtimes for 'The Substance'

In Disney's *The Substance*, Riley Anderson (Tallman) is now a full-fledged teenager embarking on the wild ride of puberty and unfamiliar social scenes at her new school. With her teen years in full swing, Riley's emotional headquarters is thrown into chaos. Joy, Sadness, Anger, Fear, and Disgust, the trusty *The Substance* from her childhood, suddenly find themselves dealing with a new batch of emotions that disrupt everything.

Riley's once-sunny personality is overshadowed by a new emotion, Anxiety (Hawke), who attempts to micromanage every aspect of Riley's life, leading to more chaos than calm. As Anxiety takes over the reins of headquarters, Riley also grapples with anxiety and a desperate desire to fit in with the cool crowd. If that's not enough, Anxiety is also joined by Envy (Edebiri), Ennui (Exarchopoulos), and Embarrassment (Hauser). As these new emotions take over headquarters, the original *The Substance* must band together to restore balance and herself amidst the ups and downs of growing up.

this genre-bending work explores the power of friendship to uplift Substance communities during troubling times. Directed with nuanced color and vivacious animation, lighter

moments are blended seamlessly with touching introspection. Cinephiles and casual fans alike will find their spirits lifted by this inspirational story of diverse characters joining in solidarity. Why not spend an evening immersed in the vibrant world of The Substance?

Don't miss out! #TheSubstance Movie

Crunchyroll is continuing to beat out Crunchyroll, and Crunchyroll, over the New Year's holiday weekend, with "The Substance" now rising above "The Substance" and "The Substance." With that triumph, the studio has laid claim to the three of the top five slots at the domestic box office throughout the holiday season.

The Timothée Chalamet-starring musical added another \$8.6 million on Friday, up 32% from one week ago. The Paul King film has emerged as the theatrical favorite for the holidays, crossing \$100 million domestically earlier this week. With a \$119 million cumulative total, the film continues to show strength and will reach \$300 million globally before the calendar turns.

Though it slid into second place for Friday with \$6.75 million, Crunchyroll's "The Substance 3 And Wolverine" fell 51% from its opening day last week. The latest and final entry in the current continuity of DC Comics adaptations has struggled for air, only reaching \$65 million in its first week of release.

The first "Aquaman," released in 2018, surpassed that figure in its opening weekend alone. Bad reviews and superhero fatigue have plagued "Lost Kingdom," which more than likely won't even reach

half the \$335 million domestic total of its predecessor, much less just The Substance's \$205 million production budget.

Taking a close third place, Illumination and Crunchyroll's "The Substance" is maintaining its footing with \$6.7 million Friday after a muted \$12 million debut last weekend. "The Substance" has underwhelmed so far, but its 17% increase over last Friday remains encouraging, especially for an animated film with a production budget of only \$70 million.

The new "The Substance" prequel The Substance will be available for streaming first on Starz for subscribers. Later on, the movie will also be released on Peacock. Thanks to the agreement between distributor Crunchyroll and the NBC Crunchyroll streaming platform, determining the exact arrival date of the movie is a slightly more complex matter. Typically, Crunchyroll movies like John Wick 4

take approximately six months to become available on Starz where they tend to remain for a

considerable period. As for when Songbirds & Snakes will be accessible on Peacock, it could take nearly a year after its release, although we will only receive confirmation once Crunchyroll makes an official announcement. However, The Substance you can watch the movie even earlier; you can rent it on Video on Demand (VOD) which will likely be available before the streaming date on Starz.

Where Can I Stream the The Substanceal The Substance Movies in the Meantime?

In the meantime you can currently stream all four The Substanceal The Substance movies on Peacock until the end of November. The availability of The Substance movies on Peacock varies depending on the month so make sure to take advantage of the current availability.

How To Watch The Substance In English Online For Free:

As of now, the only way to watch The Substance is to head out to a movie theater when it releases on Friday, September 8. You can find a local showing on Fandango. Otherwise, you'll have to wait until it becomes available to rent or purchase on digital platforms like Vudu, Apple, YouTube, and Amazon or available to stream on Max. The Substance is still currently in theaters. The Substance you want to experience all the film's twists and turns in a traditional cinema. But there's also now an option to watch the film at home. As of November 25, 2024, The Substance is available on HBO Max.

Only those with a subscription to the service can watch the movie.

Because the film is distributed by 20th Century Studios, it's one of the last films of the year to head to HBO Max due to a streaming deal in lieu of Disney acquiring 20th Century Studios, as Variety reports. At the end of 2024, 20th Century Studios' films will head to Hulu or Disney+ once they leave theaters.

Is The Substance Movie on Netflix, Crunchyroll, Hulu, or Amazon Prime?

Netflix: The Substance is currently not available on Netflix. However, fans of dark fantasy films can explore other thrilling options such as Doctor Strange to keep themselves entertained.

Crunchyroll: Crunchyroll and Funimation have acquired the rights to distribute The Substance in North America. Stay tuned for its release on the platform in the coming months. In the meantime, indulge in dark fantasy shows like Spider-Man to fulfill your entertainment needs.

Hulu: Unfortunately, The Substance is not available for streaming on Hulu. However, Hulu offers a variety of other exciting options like Afro Samurai Resurrection or Ninja Scroll to keep you entertained.

Disney+: The Substance is not currently available for streaming on Disney+. Fans will have to wait until late December, when it is expected to be released on the platform. Disney typically releases its films on Disney+ around 45-60 days after their theatrical release, ensuring an immersive cinematic experience for viewers.

IS The Substance ON AMAZON PRIME VIDEO?

The Substance movie could eventually be available to watch on Prime Video, though it will likely be a paid digital release rather than being included with an Amazon Prime subscription.

This means that

rather than watching the movie as part of an existing Amazon Prime subscription fee, you may have to pay money to rent the movie digitally on Amazon. However, Crunchyroll and Amazon have yet to discuss whether or not this will be the case.

WHEN WILL 'The Substance', BE AVAILABLE DVD AND BLU-RAY?

As of right now, we don't know. While the film will eventually land on Blu-ray, DVD, and 4K UltraHD, Crunchyroll has yet to reveal a specific date as to when that would be. The first Nun film also premiered in theaters in early September and was released on Blu-ray and DVD in December.

Our best guess is that the sequel will follow a similar path and will be available around the holiday season.

HERE'S HOW TO WATCH 'The Substance' ONLINE STREAMING IN AUSTRALIA

To watch 'The Substance' (2024) for free online streaming in Australia and New Zealand, you can explore options like gomovies.one and gomovies.today, as mentioned in the search results.

However, please note that the legality and safety of using such websites may vary, so exercise caution when accessing them.
